

Single Stream Recycling

What is Single Stream Recycling?

The process of collecting fibers (cardboard, office paper, newspaper, etc.) and rigids (soda cans, tins/steels, glass, plastics and cartons) together. This process of collection was created to make recycling easier and, in hopes, increase recycling rates.

What can you collect together?

Glass
Bottles & Jars

Aluminum
Cans & Foils

Tin
Pots/Pans, cans, empty aerosols

Cartons
Juice, Milk, Broth

#1 Plastics
Water, soda, other liquids (bottle form)

PETE

#2 Colored Plastics
Detergents, cleaning supplies, coffee containers

HDPE

#2 Natural Plastics
Milk jugs

HDPE

Wires
Christmas lights, power cords, extension cords

Fibers
Office paper, news paper, magazines, cardboard, cereal boxes

Plastic bags are **NOT** recyclable. Please find plastic bag drop-offs at local grocery store(s)/supermarket(s). Also, please consider to use reusable or paper bags.

3-7 plastics are **NOT** recyclable. Please dispose into trash where material will be turned into waste-to-energy (Xcel Energy French Island Generation Plant)

When in doubt, toss it out!
